precisely where you wish to invest and you have the time & inclination to manage your investments from time to time.

- **Systematic Allocator:** You may leave it to us to manage your investments by opting for Systematic Allocator. It is a programmed investment strategy where the fund mix becomes more conservative as the plan approaches maturity. It is a programmed investment strategy where the fund mix becomes more conservative as the plan approaches maturity. The funds will be invested in the Equity Growth fund (ULIF04111/01/08EQOPP135) and Bond Fund II (ULIF07731/10/17BOND2135) based on the residual time to maturity of the policy. This strategy moves the fund allocation towards Bond Fund II as the plan approaches the maturity date. However, by reducing exposure to Equity Growth fund, the risk of a sudden drop in the equity market affecting the accumulated value, diminishes. This strategy is not applicable for Death Benefit Multiple greater than 11. Balance /Residual time to maturity (in years) of the plan is used to determine the proportion of allocation to the Equity Growth fund and Bond Fund II. This proportion is pre-defined by the Systemic Allocator "Glide Path". The premiums will be allocated as per this Glide Path and at each policy anniversary, the Fund Value will be rebalanced as per the residual maturity of the plan. "Glide Path" is the proportion allocated to the Equity Growth Fund and Bond Fund II based on the time remaining for the plan to attain maturity as shown in the table below, the premiums will be allocated and the Fund Value will be rebalanced at each policy anniversary as per Glide Path.

Systematic Allocator “Glide Path”		
Balance/Residual time to maturity of the plan (in years)	Proportion allocated to Equity Growth Fund	Proportion allocated to Bond Fund II
1	5.00%	95.00%
2	10.00%	90.00%
3	15.00%	85.00%
4	20.00%	80.00%
5	25.00%	75.00%
6	30.00%	70.00%
7	35.00%	65.00%
8	45.00%	55.00%
9	50.00%	50.00%
10	55.00%	45.00%
11	60.00%	40.00%
12	65.00%	35.00%
13	70.00%	30.00%
14	75.00%	25.00%
15 and above	80.00%	20.00%

Units/ Net Asset Value

Each unit-linked fund is divided into number of units of equal value. The value of each unit is the Net Asset Value which we determine regularly. New units are created for cash inflows to the funds and units are realised to meet cash outflows. Cash inflows and outflows advised up to 3:00 pm are processed using that day's NAV, while those advised after 3:00 pm are processed using the following day's NAV.

Unit price (Net Asset Value) formula

The Net Asset Value (NAV) of each segregated fund shall be computed as

$$\text{NAV} = \frac{\text{Market Value of investments held by the fund} + \text{Value of current assets} - \text{Value of current liabilities \& provisions, if any}}{\text{Number of Units existing on valuation date (before creation/redemption of units)}}$$

Fund Management Charge is levied as a percentage of the value of assets and will be appropriated by adjusting the NAV on a daily basis. The uniform cut-off timings for applicability of net asset value in respect of allocations and redemptions will be 3:00 p.m. NAV and its calculation shall be in compliance with Computation of Net Asset Value (NAV) from IRDAI (Insurance Products) Regulations, 2024, as amended from time to time and any other relevant circulars/guidelines/regulations/directions from the IRDAI from time to time.

Default Fund

Although the Funds are open ended, we may, as per Board approved policy, and subject to necessary approvals as required by IRDAI, completely close any of the Funds on the happening of any event, which in our sole opinion requires the said Fund to be closed. The policyholder shall be given at least three months prior written notice of our intention to close any of the Funds completely or partially except in Force Majeure conditions, where we may give a shorter notice. In case of complete closure of a Fund, on and from the date of such closure, we shall cease to issue and cancel units of the said Fund and cease to carry on activities in respect of the said Fund, except such acts as are required to complete the closure. In such an event if the units are not switched to another Fund by the policyholder, we will switch the said units to any other appropriate Fund with similar characteristics as per Board approved policy, with due weightage for the respective NAVs at the time of switching, subject to necessary approvals as required by the Regulator.

However, no fee would be charged by us for switching to another Fund or exiting from the policy in the event of complete closure of Funds.

Foreclosure

After the lock-in period,

1. If at any time during the policy term, the Fund Value, including Top-up premium fund value, if any, becomes insufficient to deduct one month's charges, as applicable under the policy, then policy shall be foreclosed (after reasonable and sufficient

notice to Policyholder) and the surrender benefit, if any, as on date of such foreclosure shall be paid.

2. Policyholders shall be informed of such probable situation at least one month in advance to ensure fair treatment to the policyholder and give them a reasonable opportunity to top-up the fund if required.

On foreclosure, Fund Value (if any) shall be payable and the policy shall terminate.
